SMALL FOOTPRINT,  
BIG PERFORMANCE

# magicolor 2300 DeskLaser

## Size matters

The magicolor 2300 DeskLaser is a colour laser printer which delivers the performance you need, in a neat package that takes up less space on your desktop than many inkjet printers.

The magicolor 2300 DeskLaser prints 4 full colour pages per minute or 16 black and white pages per minute with impressive 2400 x 600 dpi laser quality. Although the magicolor 2300 DeskLaser is small enough to be used as a personal colour laser printer, it also comes with a standard network connection and a maximum duty cycle of 35,000 pages per month making it suitable to be shared amongst small workgroups.

### Ready for a Workout

With a low purchase price combined with the speed, quality and low cost per page which laser printing offers, the magicolor 2300 DeskLaser is a great choice for small workgroups and personal business users who want to add more colour to their work.

## OPTIONS

### Exercise Your Options

The magicolor 2300 DeskLaser also has low cost options to increase the printer's paper capacity and allow automatic double sided printing. Details of these and service and consumables can be found at <http://printer.konicaminoltaeurope.com/configurator> with current list pricing

#### Document handling

- Automatic duplexer for two-sided printing

#### Polymerised toner

The magicolor 2300 DeskLaser uses polymer toner to give the best print quality. The new technology used to make polymer toner allows greater control over the particle size of the toner, better control over colour and a cleaner printing process. This results in better quality prints and a more reliable printer.

#### Memory

- Upgradable to 288 MB

#### Paper input

- 500-sheet lower input feeder
