LAMIART 320/470 LSI

Pouch Laminators

Guide to lamination

1 Press power switch "On" - located at the rear of the laminator

Press "Hot" key for hot lamination

3 Insert document into pouch laminator.

Within seconds you have a laminated document.

In offices, restaurants and clubs, in hospitals, schools and colleges. Lamiart pouch laminators provide a distinctively different solution to enhancing the appeal of printed documents while protecting them from damage.

Lamiart pouch laminators make maps, menus, manuals, posters and price lists, certificates, business cards, ID and membership cards, and a host of other materials look better and last longer.

Safe and simple to use, you just slip the material to be laminated into the ready made plastic pouch-feed it in to the laminator-and in seconds you have an attractively laminated document.

- Temper proof, long term protection
- Lamination with a wide variety of patterns-and materials
- Cold lamination-pressure sensitive lamination
- Color printing-terrific colors transfer on to black/white photo copies
- Soft finish lamination using PHOTONEX patterned materials
- Single side lamination
- Image transfers with GMP transfer paper
- Mount and display photos using LAMIBOARD™

Leaders in Lamination Technology

SPECIFICATION

Model	LAMIART-320LSI	LAMIART-470 LSI
Power Consumption	1100W 5A	1500W 6.8A
Dimensions(H×D×W,mm)	510×317×165	670×317×165
Weight(kg)	17	21
Max Laminating width(mm)	320	470
Laminating speed	Variable from 0 to 1600mm/min	
Operating temperature	0~160 °C	
Driving motor	DC geared motor	
Control system	8-bit microprocessor control	
Heating method	Heat plate, Infrared Heater
